ANNOUNCEMENTS.

Announcements of candidates in this column will be \$5.00, cash in advance, payable as follows: \$2.50 on announcement, and \$2.50 if securing nomination.

FOR FLOATER.

We are authorized to announce W. H. WILSON as candidate for Floater, to represent the counties of Marion and Franklin in the next General Assembly.

ELECTION CRITICISED.

There are charges that some of the officials were careless in the recent election. Officers, it is said, were not properly sworn, and returns were made out in poor manner, either through ignorance or carelessness. The vote at Kellys Ferry because returns were not certified by the proper officials, was thrown out by the election commissioners, the Pryor Ridge vote was not counted because returns were not forwarded to the election commissioners in time to be canvassed Monday, as ordered by law, and the South Pittsburg box had two more votes in it than the tallysheet showed.

Neglect to swear the officers to do their duty might give abundant opportunity for fraud, as an unsworn officer, if so minded, could do as he pleased with the returns, or even during the election. Still another evil is his permitting the other officials to serve unsworn. And of course if an officer is unsworn he cannot properly administer the oath to his assistants. He should first be sworn himself. The law is clear on the subject. There is excellent ground to have the elected repeated, and carried out with observance of the provisions of law, which it is a simple matter to obey and thus have things right.

HOW TO FEED YOUNG TURKEYS

Thanksgiving and Christmas Markets Are Not Far Away.

(By Richard N. Crane, Division of Extension, University of Tennessee.)

Young turkeys should be fed but fed sparingly as soon as they are strong enough to stand up and come out from under the mother turkey.

They should be fed on the yolks of hard-boiled eggs for the first two or three days, after which time their feed should consist of equal parts of egg-bread, cottage cheese and finely-chopped-up onion tops and onions.

For the first four or five weeks they should be fed at regular intervals of two or three hours, after which time they should be allowed free range with the mother turkey, and fed liberally every night on equal parts of wheat and cracked corn.

In order to develop the best turkeys for the Thanksgiving and Christmas markets they should be fed daily, the preferable time being late in the evening. This will cause them to come up close to the buildings to roost, where they will be less liable to be stolen or destroyed by vermin.

SEQUATCHIE CO. SINGERS
IN INTERESTING SESSION.

Dunlap, Tenn., Aug. 5.—The Sequatchie County Singing Convention held an interesting session at the Baptist Church at Dunlap Sunday with a large attendance. Ed Johnson, president of the association, presided. Among the visitors were Prof. R. L. Ferguson of Marion County, singing director of the Marion County Singing and Sunday School Convention, and John Cowan, of Whitwell, its president. Sessions were held morning and evening and a splendid program rendered. Mr. Aley was chosen as the next meeting place on the 8th Sunday of Oct. 8.

The Seven Years' War, it is said, was largely due to the vanity of Frederick the Great, who confessed he wanted to see his name figure largely in the gazettes.

Hamburg.

Special to the News.

Well, as I see there is no one writing from this place now, I thought I would try and write a few lines. Mr. and Mrs. Tom Golston spent Sunday with Mrs. Golston's mother, Mrs. Jane Morrison.

Jim Morrison and family spent Sunday with his brother, Ben Morrison. John Paister escorted Miss Lillie Payne home from church Sunday.

A certain two people disguised themselves Saturday night and sure did do some fine waltzing and two-stepping, and Miss Lillie Morrison played the organ for them.

Mr. and Mrs. Buch Rollins and Mr. and Mrs. Elec Layne called on J. W. Layne Sunday.

Tom Morrison and wife spent from Saturday until Monday with Mrs. Nunley.

Mrs. Lee Lavan is visiting her daughter, Mrs. Bonnie Almond. Kellie and Lillie Morrison, Ed and Lillie Payne and Henry Rollins went to Wash Kilgore's to meeting Sunday evening, and got wet. Go again, boys and girls. Maybe you won't get wet next time.

Dock Green called on Mr. and Mrs. Henry Nunley Sunday.

Misses Lillie Morrison and Lillie Payne went to Whitwell shopping Friday.

Mrs. Rosa Spears called on her sister, Mrs. Lola Morrison, one day last week.

Ben Morrison and wife called on Mr. Morrison's mother, Mrs. Jane Morrison, Friday.

Mrs. Ada Loveday and children spent Sunday night with Mrs. Tom Golston.

If you want to see a certain girl look mad, just ask her about falling Sunday night.

Ben Lavan was all smiles Sunday night.

Mr. and Mrs. Adam Sanders called on Mrs. Will Nunley one day last week.

Mrs. Bonnie Almond called on her mother, Mrs. Lee Lavan, one day last week.

Say, "E. P. S." of Trenton, Ga. Mrs. Lola Morrison said she was aiming to come down there, but if those Texas grasshoppers were that big she was afraid to come.

Mrs. Mag Morrison called on Mrs. Jane Morrison Sunday.

Miss Martha Loveday has been going to the mail box every morning for the past week. Wonder who she has been looking for a letter from. Her papa, I guess.

Will Rutherford made a flying trip to the Lock and dam Saturday.

Misses Lillie Payne, Lillie Morrison and Minnie Rollins went to the singing Sunday night, and got disappointed. Go again, girls, maybe you won't get disappointed next time.

Miss Esther Morrison seemed to enjoy herself fine Saturday night.

Kellie Morrison sure did get a hard fall Sunday night. Don't cry, Kelly, be careful next time.

I was reading in the paper a while back where the boys had got so rough everywhere. I am glad to say that we have some nice young men in our community. They are not always drinking, gambling and going around trying to raise fasses with oneanother.

They go to church and Sunday school, and to singing Sunday nights, and are always peccable.

Well, I will ring off, hoping to hear from all the correspondents next week.

Clifty.

Special to the News.

Well, Mr. Editor and readers, I will give some items from the mountain. Health is generally good. There has been only one death in this community this summer, and just one serious case of sickness at present.

L. S. Baumgartner has just returned from a trip to Orme.

Mr. and Mrs. Arthur O'Neal, of Sparta, is enjoying a visit to the mountain.

Baker and Welch have erected a stove mill here, and is doing a good business, cutting staves. They will also have a tile mill here in the near future. There is already being shipped from the mountain many thousands of ties, going to the different roads in the country. Soon there will not be any timber in this country sufficient to make ties. The lumber men are cutting everything that is saleable from nine inches up.

The people of Clifty have built a community silo. It is about completed, and will be ready for use by the time silage will do to put up.

There was an accident, happened in the mines a few days ago. Some eight or ten men were slightly hurt. Fate Kidwell was hurt in the accident. He had recovered so as to go to work, but was kicked by a mule on the arm while on the street, which very near broke his arm.

Mrs. William Smith, of Christopher, Ill., is in town visiting relatives and friends.

Cheney Reece and family left last week for California to seek a fortune. The honey pond is just ahead all the time.

We see a good many deaths announced in the News, among them Mrs. J. S. Bennett, of Sequachee. Mrs. Bennett was a relative of ye writer's by her first marriage. We are always sorry to hear of the death of a friend or relative, but that is a debt we can't avoid, and all have to meet it some day. We sympathize with her husband and children.

I think I will visit old Marion County some day. I guess there have been many changes made since I left there.

Mrs. M. J. Girdley was in Eastland Sunday, visiting Mrs. James Bohannon.

Miss Josie Girdley visited in Eastland Sunday.

PICNICS CHASE BLUES AWAY

(By Wm. A. Schoenfeld, Division of Extension, University of Tennessee.)

The old saying that "All Work and no Play Makes Jack a Dull Boy," applies to communities as well as to children and grownups. Why not plan a series of community picnics to which every one is welcome, be they old or young, rich or poor?

The various communities of one Tennessee county are going to hold a series of community picnics within the next few months. Henry Jackson's son Tim is already practicing; climbing a greased pole, and his friend across the road is practicing chasing a greased pig.

Ice cream and goodies are to be sold and the profits will be used in buying a stereopticon for next winter's meetings in the community hall.

Everybody boasts for the community picnic!

HE COULD HARDLY WALK.

Deranged Kidneys cause rheumatism, aches, pains, soreness, stiffness. Ambrose Gary, Sulphur, Okla., writes: "I was bothered with kidney trouble ten years and at times could hardly walk. I began taking Foley Kidney Pills. I got relief from the first but continued all I had taken three bottles. I feel like a new man." Sold by J. W. Simpson & Son, Jasper, Tenn.

The rapid growth of vegetation in polar regions, despite the brief summers, is attributed to the strength of the electric currents in the atmosphere.

EAT GREEN VEGETABLES AND FRESH FRUITS

Keep the Body Free From Acid Which Causes Many Digestive Troubles and Many Bad Teeth.

(By Geneva Conway, Division of Extension, University of Tennessee.)

Why is it that many persons eat too much meat and heavy vegetables and forget about the green vegetables? All starchy vegetables and cereals develop acid in the system. Meats also cause this acid condition. The green vegetables and fruits form alkalies. To keep the body in good condition, one must have considerable alkali in the system to overcome the acid.

Green vegetables also contain large quantities of water and a great deal of roughage. The eating of green vegetables and fruits serves to get water into the system. Green vegetables and fruits act as brooms to the stomach and to the intestines—sweep them clean.

It is believed that pellagra, that dread disease, is developed through the diet that is rich in starch and proteins. The use of vegetables and fruits, eggs and milk, is recommended. The use of much starch and fat is not best.

Starchy vegetables are macaroni, rice, hominy and potatoes. Potatoes do not form an acid reaction—contrary to all rules. All cereals are included in this group.

The predigested foods do not bring into play all the digestive juices of the body, and some object to this sort of food. However, if one has a poor cook or a cook who does not know the principle of preparing cereals, it is better to have these ready prepared foods. They will not cause undue exertion upon the body.

It is not a question of how much food one eats, but how much and what kinds are actually digested and formed into body tissue.

WHY NOT TRY SOME REAL CO-OPERATION?

Clover Seed Can Be Bought More Cheaply That Way.

(By Wm. A. Schoenfeld, Division of Extension, University of Tennessee.)

Don't drive to town to buy your clover seed in small lots. Arrange with your neighbors to buy in large quantities. Let each one who orders deposit money with a local bank or make arrangements with the banker for a loan. When all the money for the orders has been deposited in the bank or provision made for the amount of the order, then let one of your number act as buyer.

If you will look around in your county or will ask your county agent, you can frequently find men who have excellent clover seed for sale. By having the money in the bank the seed can be bought at cash prices. Because you and your neighbors go together a considerable saving can be made on account of the quantity bought.

MARKED SUCCESS OF AN ILLINOIS FARMER

Who Would Not Like to Sell \$10,000 Worth of Young Cattle Each Year From 200 Acres?

(By C. D. Lowe, Division of Extension, University of Tennessee.)

Tennessee farmers who came to the Aberdeen-Angus sale which followed the East Tennessee Farmers' Convention commented upon the splendid animals. Several spoke of the profits that came from raising pure-bred stock.

"Did not the 19 head, ranging in age from 12 to 18 months, all belonging to one man sell for more than \$300 each," someone remarked.

A business that brings in a gross income of \$300 yearly per cow is interesting to any cattleman. Hand-some profits are discernable.

The man who made this record sale is a plain Illinois farmer with no more ability and opportunity than hundreds of Tennessee farmers. He has a farm of less than 200 acres in southern Illinois (a part of the state known for its poor lands) and maintains a herd of from 35 to 40 head of pure-bred cows with the assistance of two sons, sixteen and nine. The three do all the work. The sale of from \$7,500 to \$10,000 worth of young cattle from his farm each year savors of much profit.

The secret of his success is close attention to business and the proper foundation stock.

The American Aberdeen-Angus Breeders' Association should be given credit for the success of the sale. Forty-three head were distributed. The cattle were on exhibition four days.

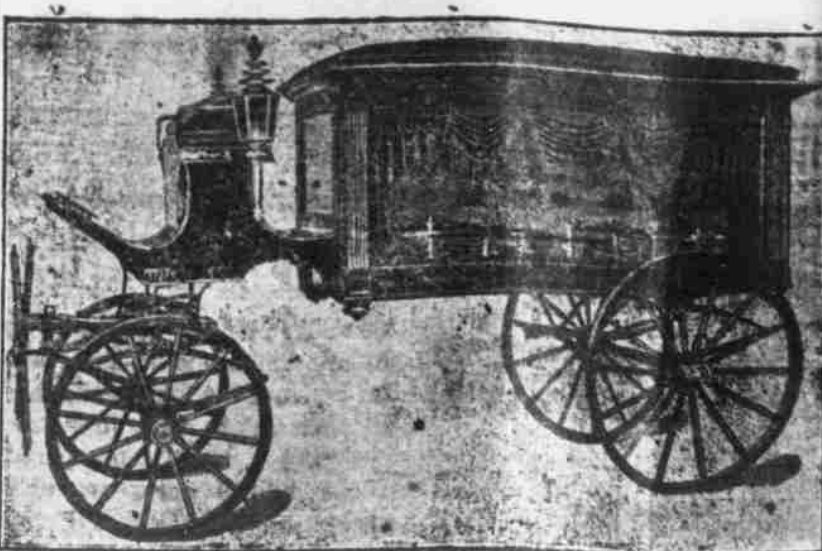

The forty-three head sold for an average of \$247.50 and the majority of them were yearlings—a good sale.

Don't think that the work of the county agent is easy. Do you have one? Is he or she working for you? Perhaps you think that work is not difficult. There are trials, however. Here is what one woman agent wrote to a friend:

"I planned to go to another place this afternoon, but yesterday I rode a horse with one comfortable gait—a walk—and as a result I am unable to move to-day with any degree of comfort. I have ridden donkeys, mules, and I will admit, calves, but without doubt this was the worst yet. My fingers are the only joints that are not stiff."

Easy, isn't it?

Special to the News.

We have had several good showers during the last three days. It had not rained here since April. It was the second rain we have had this year, but crops look very well. In some parts of this country they will have all of the cotton they can gather, but there will not be much feed made.

Well, the soldiers going to the border have made good business for the railroad men. Some people think the Mexican war is over but I do not think it has begun. I think the United States are getting ready for war. If war is over, why is Uncle Sam still shipping soldiers to the border? Times look pretty hard out here, a railroad strike and Mexican war. I do hope they will settle the railroad trouble without a strike and Mexican trouble without a war.

Newton Graham and family were in town Saturday and went to the picture show.

We will not have much fruit this year on account of the dry weather. They will have an abundance of fruit about a hundred miles east of here. We do not have anything in the line of fruit but peaches, plums, and grapes.

Mrs. Winger went to Fort Worth last week. She stopped off at Clide, Texas, and made a short visit.

They are getting along nicely with our new school building. I think it will be November before it will be ready for school. Our town can not be beat for schools by any town its size.

Our new furniture store will be completed September 1st.

Charlie Simmons fell from a hay wagon and was very badly hurt. His head struck the wagon wheel and cut a gash across his forehead, and bruised shoulders. He can't use his arms. The Dr. took 14 stitches. He is about 55 years of age, and I am afraid he will not get over his injuries very soon.

I expect to visit Tennessee next summer. I am going to wait until next summer and everything will be green and I will like it better than I did when I was there last March and you all can expect me.

Jno. F. Deakins Injured.

Jno. F. Deakins happened to a very serious accident last Saturday at his home below town by falling from an apple tree.

He was taken Monday morning to the Highland Sanitarium, Chattanooga, accompanied by Dr. J. A. Lamb. Upon examination it was found that his back was broken. Dr. Woolford performed an operation on him removing three joints of the vertebra. Little hope is entertained for his recovery.—Dunlap Tribune.
